Please contact us at 519-944-6358.

#### Hours

Monday	8-7 pm
Tuesday	8-4 pm
Wednesday	8-4 pm
Thursday	8-4 pm
Friday	8-2 pm

## SPORTS MOUTHGUARDS

Mouthguards protect your head, jaw and teeth.

They avoid concussions by preventing the lower teeth from being forced up against the upper teeth and jaw.

Custom fit mouthguards are the most comfortable and are non bulky and form fitting compared to the ready-made or boil & bite off-the-shelf mouthguards, which are very loose and ill-fitting. They also interfere with breathing and speech.

Remember, you child's mouth is always changing from baby teeth to new permanent teeth moving in, therefore they need a mouthguard that has a proper fit.

Check with Dr. Stoyshin regarding a mouthguard clinic that he is sponsoring this year.

# The importance of a Complete Oral Exam & Digital X-Rays

No matter how carefully you take care of your teeth and gums, there are a number of oral health conditions only your dentist can see, which is why we take diagnostic x-rays when needed.

Here are **TEN** oral health problems your dentist can see with x-rays.

1. Deterioration in fillings, crowns and other restorations.
2. Root cavities – decay on roots of teeth exposed by receding gums.
3. Periodontal pockets caused by gum disease.
4. New decay under the gum-line.
5. Cavities under existing fillings.
6. Hairline tooth fractures.
7. Impacted wisdom teeth.
8. Early signs of oral cancer.
9. Early signs of infection.

10. Problems with the bone holding the tooth in place.

At our office, we use the most up to date digital x-rays, allowing almost 99% radiation-free images. All of Dr. Stoyshin's staff are well trained and certified to take these radiographs.

We believe that digital x-rays gives us another tool to provide the best educated treatment for our patient's health care which is our goal.

## Jokes & Trivia

Q: When the dentist went to the fair, what did he like even better than the roller coaster?

A: The fluor "ride"

Q: What did one tooth say to the other?

A: Get your cap on, the dentist is taking us out tonight.

### Trivia

Snails are very small but they can have thousands of tiny teeth all lined up in rows.

Rabbit's teeth never stop growing.

They keep them worn down by gnawing on bark and other hard foods.

### Sugar-Free Barbeque Sauce Recipe

1 tablespoon dried onion flakes

1 teaspoon Worcestershire sauce

1 teaspoon lemon juice

1 teaspoon onion salt

1 teaspoon crushed garlic

A pinch of cayenne pepper

4 tablespoons tomato puree

1 cup sugar-free cola

Simply mix these ingredients together. The sweetness comes from the diet cola.
